	APPROVAL OF STATE ENGINEER					
	This is to certify that I have examined the foregoing application, and do hereby owing limitations and conditions:	grant the same, subject to the				
tha per sou of in wat was at ran	understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the period of use and the average number of livestock served from the waters of this source. It is further understood that this right must allow for a reasonable lowering of the static water level at permittee's well due to any other ground water development in the area. The well shall be equipped with a 2-inch opening for measuring depth to water. If well is flowing, a valve must be installed and maintained to prevent waste. The State retains the right to regulate the use of the water herein granted at any and all times but does not take responsibility for the use of the Federal range. This Permit does not extend the permittee the right of ingress and egress on bublic, private or corporate lands. The issuance of this permit does not waive the requirements that the permit nolder obtain other permits from State, Federal and local agencies.					
The	amount of water to be appropriated shall be limited to the amount which can be	applied to beneficial use, and				
not	to exceed 0.0062 cubic feet per second, or	sufficient-water				
to	water 200 head of cattle.					
Wor	rk must be prosecuted with reasonable diligence and be completed on or before	February 19, 1985				
	of of completion of work shall be filed before					
	olication of water to beneficial use shall be made on or before					
	of of the application of water to beneficial use shall be filed on or before					
	o in support of proof of beneficial use shall be filed on or before
